RE:CORE metals GmbH

Material fractions for recycling

Aluminum I-profiles

Aluminum sheets

Cuttings (initial waste)

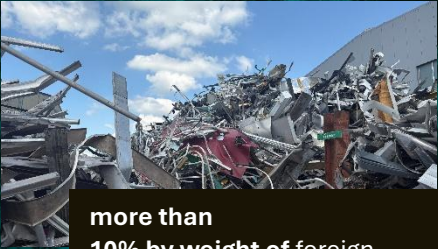

No adhesion

Max. 10% by weight of foreign substances*

Finishing profiles

more than 10% by weight of foreign

The following items are specifically excluded from acceptance

- Radiators
- Cans, foil, blinds
- Castings
- Aircraft aluminum (Chromium VI)
- Aluminum wire
- Chips & briquettes
- Hollow objects
- Dirt
- Bottle caps

*Foreign materials are substances that adhere to the aluminum scrap or are found loose in the container. These include non-metallic materials such as paints, plastics, gaskets, and adhesives, as well as metallic materials that are not aluminum alloys. The proportion of foreign materials is calculated by weight and affects the sorting effort and thus the material value.
